Did you know a large truck or bus driver may not be able to see you bicycling?

Large trucks and buses have many blind spots that are larger than other vehicles!

How can you be safe near a large truck?

- Yield right-of-way as required by law in your state
- Make yourself visible with lights or clothing
- Always be aware of your surroundings
- Don't ride your bike with headphones
- Don't text or use your phone while riding
