

CMV Work Zone Training Module

The enclosed training module address CMV work zone safety in Texas. It includes two parts:

1. **Recorded presentation with voiceover narration.** This six minute presentation provides background information on work zones, associated crash statistics, risks, and essential safe driving tactics for navigating work zones.
 - a. Presentation link:
https://www.canva.com/design/DAGEyEiBL2M/IktdBDp5fkdGZsJo3HJbpQ/view?utm_content=DAGEyEiBL2M&utm_campaign=designshare&utm_medium=link&utm_source=recording_view
2. **L3Harris TranSim™ driving simulator scenarios.** These simulator scenarios provide drivers the opportunity to navigate work zone situations. Instructors are encouraged to have drivers describe their surroundings and driving actions and coach them when risks go unnoticed or driving actions warrant feedback.
 - a. Construction Issues
 - b. Rural Construction
 - c. CDL SMART Final

If you have any questions or would like help identifying driving simulator scenarios for another type of simulator, please contact Eva Shipp (eshipp@tamu.edu) and Emily Martin (e-martin@tti.tamu.edu).

The development, evaluation and dissemination of this module is part of the Developing Experiential and Evidence-Based Truck Driver Training on Work Zone Safety in Texas project funded by the Federal Motor Carrier Administration's High Priority Grant Program (FM-MHP-0674-22).
